

## **Board Accepts Final Billy Casper Golf Report**

At its monthly meeting on Jan. 23, the RVRMA Board accepted the final Billy Casper Golf report, and approved releasing the full report to the RVR community.

As you may know from reading these weekly Golf Updates, the Board contracted with Casper Golf in September 2018. The consulting contract was designed to provide the Board with knowledge to guide its eventual recommendation to the community. The Casper Golf report itself does **not** make recommendations regarding potential Board and community actions. Ultimately, any actions taken regarding the golf course would come from a vote of the RVR community – based on recommendations from the Board.

Now that the report is complete, the next step is to share it with the RVR community. Sometime next week, you should receive an email with a link to the report.

## **Board Approves DHM Design Open Space Consulting Proposal**

Also at the Jan. 23 meeting, the RVRMA Board approved a consulting agreement with [DHM Design](#) of Carbondale. The agreement calls for DHM to provide analysis of open space options with the golf course. The open space analysis is intended to give the Board an understanding of what could be done with the golf course property – if it were not used as an operating golf course.

The open space analysis will include estimated costs, both operational and capital expenses. Following completion of the report, the Board should be able to compare potential costs and benefits to the community of operating the golf course, or converting it to open space.

The open space consulting agreement approved by the Board is not to exceed \$12,000. The report should be completed over the next few months. That report, when complete, will also be shared with RVR homeowners.
