

Additional Golf Roundtables Scheduled

Two more Golf Roundtables are now scheduled for January. The first will be held on Jan. 10, in the morning. The second will be held on Jan. 14, in the evening.

Both sessions will have limited seating – about 15 homeowners at each roundtable.

If you're interested in attending either session, please save the date on your calendar, and look for sign-up and RSVP details in an upcoming Golf Update.

Billy Casper Golf Report Nearly Complete

Representatives from the RVRMA Board and Golf Advisory Committee are working with Billy Casper Golf, our consultant, to finalize the Casper Golf report. The report should be finished in early January. Once completed, it will be shared, in its entirety, with the RVR community.

The report focuses on the economics of operating the course, identifies long-term capital needs, provides a “fair market value” for the golf course, and estimates what effect a golf course closure could have on RVR property values.

The report will not make recommendations regarding potential Board and community actions; instead, the report will provide data the Board could use to

determine its own recommendation to RVR homeowners. Ultimately, any actions taken regarding the golf course will come from a vote of the RVR community.
